THE HEALTH OF WASHINGTON -There is no other subject in which a large number of our readers have a greater interest than in that of the health of our city. So, a synopsis of the interesting portions of the report of the Board of Health will, of course, be found most interesting, more especiall as it sets forth every read ble particular of the health of the city with perspicuity and force. Thus

The whole number of interments reported during the year is 1,209; and as our population may be esti mated at 55,000 to 60,000, it follows, taking the larger number as the sasis, that the annual ratio of mortality is 2.01 per cent., or that, on an average, there is I death to eve y 50 inhabitants; or, assumin the smaller number, the ratio of mor ality is 2.18 per cent., or I death to every 45% inhabitants.

Our report shows a lamentable mortality among children; more than one half of all the deaths having occurred in persons under fifteen years of age. This may be readily accounted for when we reflect that much the larger proportion of these deaths have occurred among the children of negro, of foreign, and of destitute native parents, who usually reside in alleys, and in the suburbs, are badly fed and clothed. and cannot receive the same degree of care and attention, as others more favorably situated. In this mortality among children we do not differ from other large cities, in all of which the greatest number of deaths occur during the first five years or life. It is to be hoped, however, that the extension of the present wise and beneficent provisions by this Corporation-in employing ward physicians, to attend and furnish medici es to the indigent poof-will lessen this mortality; a result to which the establish ment of local dispensaries will very materially con

From consumption, our bills of mortality exhibit a larger relative proportion of deaths than from any other cause, being 134 to 1,209, or 1 to 9. This result does not depend upon any peculiarity of this climate or locality, as the disease is not by any means a common one among the permanent residents The greatest number of deaths from it occur among the mulatto population, of whom we have disproportionately large number, and among strangers, who annually visit our city for business or pleasure, many of them bring with them the seeds of the disease, and remain long enough to lave it fully developed and proceed to a fatal termination. Taking these circumstances into consideration, and giving to each its just weight, it will be found that our annual mortality from consumption is less than that of the Atlantic cities north and east of Wash-

THE BAKER'S PETITION -The following is a copy of the petition of the Bakers of this city, in relation to the new bread law, as recently passed by the WASHINGTON, October 28, 1854.

To the Boards of Aldermen and Common Council: GENTLEMEN: The undersigned, master bakers of the city of Washington, respectfully represent to your honorable bodies that we have suffered great annovance and injusties from the operation of tie law recently passed regulating the size and qualit Our business is of such a nature, and subject to

so many contingencies, which no foresight or caution can control, that we are all liable to violate its provisions and be made amenable to its penalties after making every effort in our power to comply We feel assured there is no disposition to oppress

or injure an industrious and useful class of artizans. or to single them out as objects of special legislation: yet such has been the case in every law heretofore used. We are aware that the public demand some aw to protect them from imposition, and look to you as their elected guardians to provide a remeay for the evil of which they complain. With a sincere and honest desire

riews of our fellow-citizens, we respectfully petit or that your honorable bodies will enact a law requir ing bread to be sold by weight after it is bake. Such a law will save the baker from penalties whiel he cannot avoid and secure to the public all they re quire. A law can be framed requiring every person who sells bread to weigh it before delivery and charg only for the amount sold, and we care not how so vere the penalty be made for its violation. A law such as we suggest has long been in operation in the city of Paris, and has worked greatly to the public advantage. We know that the law will impose upor us some inconvenience, but we are prepared to make A. Noerr John Leonberger

STEWART HOLLIND .- The following from th Union will be responded to by every true lieart that its just sentiments reaches :

The press of the country have dwelt with enthu siasm upon the noble daring, the heroic virtues, the constancy and good faith, of the young man of Washington, one of the victims in the ill-lated steamer where his afflicted father now resides, and the young gentleman had many devoted and attached friends His heroism upon a trying occasion has endeared him still closer to them, and h s memory is embalmed in their hearts and consecrated in their affectious. It has been profesed that a monument to commemorate the virtues of the deceased be erected in one of the cemeteries of the city, and the suggestion has been heartily responded to by all with whom we have conversed. This is as it should be. By honoring the memory of one who sank beneath the blue waters of the Atlantic whilst obeying the dictates of henor and humanity, we honor ourselves.

We learn that subscription papers for the signatures of those of our citizens who are willing to contribute to this praiseworthy object will be placed at the counting-room of the Union and Globe offices, and at the office of Williard's Hotel, to-day. It would, we feel convinced, be superfluous to make an appeal to the liberality of our citizens. We have no doubt that they will eagerly embrace the opportunity to contribute in aid of the enterprise.

ABOUT OYSTERS .- Our efforts to show that sound oysters are not dangerous, do not meet with entire approbation from the writer of the following. Let him be heard:

MR. STAR :- It is useless and wrong for you to endeavor to create the impression that oysters are net unwhelsome, and that death has not been produced by them. Every case called cholera that has occurred this Fall, has been produced by eating oysters, not stale or old, but fresh and just arrived. The truth is, that oysters are sick, diseased, and are bequitely unwholsome and unfit to be eaten. This applies only to oysters from shallow places; along shore or in creeks that have been exposed to the direct rays of the sun at low water. Deep water oysters are as good as ever, and no harm will result from their use. The writer of this has never befo e this season been affected by eating oysters. He has had, within two weeks, two amacks of cholera morbus, superinduced by e-ting oysters, without whisky or brandy, good or bad. The oysters were, in both instances, fresh, and to all appearance, good. The impression that oysters are unwholesome is abroad, and cannot be removed soon. The ovster business this winter, will be at a discount, after a mon h or so. The oysters that are now sick, will have recovered their health and good properties, and can then be eaten with impunity; now they cannot, despite of all opinion to the contrary.

AN ARBITRATION ( ASE .- After a storm in 1852 some twenty cords of wood was found floating in the Canal, and were picked up by two men, Messrs. Day and Ritter, who were required to give it up to a man named Daley, claiming to be the owner. BRANNAN, all of this city. They consented to give it up on being paid a dollar per cord as the salvage; and this being refused, the wood was sold to one Captain Bottings. Frequen attempts to set le the matter have been made, but none of them being successful, Mr. Thos. . cLaughlin and Captain Warder were called in as arbitrators. Witnesses were examined by N. Callau, Esq. and the case lays over to be deci ed this evening It will, probably, at last go to the Circuit Court where the question will prove to be a novel one.

A FESTIVE SCENE POSTPONED .- Instead of the social and pleasant beli of the President's Mounted Guards, the members and all friends have to "don the sad habiliments of woe" for the estimable daughter of Capt. Peck, and late wife of Mr. James A. King, a member of the corps. The lady expired in the bloom of youther womanhood, on Sunday night, and yesterday afternoon her surviving friends followed her remains to the sad and silent tomb. The ball of the Guards is consequently postponed. " Death lies on her like an untimely frost

Upon the sweetest flower of the field."

THANKS TO THE MILITARY .- The Board of Man agers of the National Washington Monument Asso ciation have passed the following resolution, which has been transmitted to Col. Hickey by the secretary, John Carroll Brent, Esq. :

Resolved, That the Corresponding Secretary commonicate to the Colonel of the regiment of militia of the Listrict of Columbia the thanks of this Board for the liberal and patriotic contribution by the regument, on the 19th October, the anniversary of the surrender of borktown, with a request that the Colonel will convey the grateful acknowledgments of the Board to the several companies as contrib

LARGE FOREFALS .- The funerals of Lieut. Mohu of the National Greys, and private O'Brian, of the Mentgomery Guards, were largely attended on Monday atternoon, by friends in backs, as well as by the respective companies. A salute was given by the Greys to the Guards, on the latter entering the grave yard, where the former had left to his repose their deceased comrade. In seeing both go to the same g ave-yard, it reminded us of the dirge of the Sex ton—"We gather them in." 11-01 500

- INFORTANT DECISION .- Under a wait of habens eorpus Mr. John Van Horn, a tavern keeper in Georgetown, was yesterday brought before the Circuit Court from the workhouse. It appeared that he had been arrested for selling liquor without license and, on failing to pay the fine, was committed, and went to prison rather than be, as he thought, imposed upon. After a patient hearing, Judges Dunlop and Morsell decided that he should be discharged on the ground that the Corporation of Georgetown, under their charter, had no right to make such a commitment. It ams that an action for damages against the Georgetown authorities, may be brought and carried by Mr. Van Horn. He lacked one signature of the neighborhood to his lincense, offered to pay, was refused, sold without license, and sold on his own hook, and thus upset the assumptions of Georgetown.

THE CASE OF SHOOTING .- Mr. F. Fitzgerald, who was arrested on Monday, by Officer Allen, on a charge of shooting a hackman named George Daley, is said to be lying very ill ever since. The young man had been en a foolish spree, and committed the act under the influence of liquor, and is now suffering the consequence. He has good medical attendance. In regard to the case of shooting, as the hack driver did not appear again t him, Justice Smith could take no action, and the accused was

Newman and Busey, of the Common Council, with the Mayor, are the joint committee in regard to the erection of these "sinking funds," just authorized by the Councils. CHARGE DISMISSED .- Wm. Myers, a servant at Browns' Hotel, had Thomas Mailord, a late servant there, arrested fos stealing his trunk of clothes, and brought before Justic Morsell. On examining the case the magistrate seemed to regard it as almost an act of malicious mischief on the part of Mailord, and after hearing the facts, honorably dismissed Mr.

SHANGHAI TROTTING MATCH .- A trotting match in harness, between two Shanghai roosters, Beau Hickman and Truth Robertson, is to come off at ner of Pa. avenue and Tenth sts. These rooms are the Force of Habit, a year of corn being placed on ply in the building to each shaft, just be ond picking distance; the prizes to be a copy of an Essay on Shape and Talent, and a bran new Yankee Doodle. Though both are tender in the feet, bets are ten to five on the other fowl.

U. S. CIRCUIT COURT .- On motion of Hon. Sam Chilton, Alexander H. Evans, Esq., of Texas, was admitted as an attorney and counsellor in this court.

WATCH RETURNS .- The record, this morning, shows only the arrival of a Jack Tar, who was dismis ed this morning. A certain landlord, with party of rowdies, took a round on the Island, last night, were stopped by the officers of the night, and in pity were let go, on good behavior. They had bettes not try it on again.

63" BURDON BURROW'S ELIXIR VITE.-Its virtues ave been endorsed by DIVINES, EDITORS, LAWYERS, of the city of Norfolk and town of Portsmouth, and every one of their 25,000 inhabitants, are living witness of its extraordinary virtues upon themselves or some friend and ac traordinary virtues upon themselves or some friend and ac quaintance. Remember certificates of cures performed in this city, where the medicine is prepared, are alone published. Numerous persons take it every spring and fall, and ail who have adopted so wise a course require no other medicines, and the testimony of all after using a few bottles is, I have derived more benefit from its use than from all the medicines I ever drugged my system with. If there are worms in the body it will kill and expel them. It will remove and cure the worst carbuncle, and if drank freely during intiammations, mortification can never ensue.

Extracts from an editorial notice in the Portsmouth, Va Globe, July 13, 1854. The Editor says: In this community this medicine scarce ly requires a notice, it has been so often tested and its virtues so well known from the numerous cases of its success ful use, that it is sold now just as readily without presert tion or recommendation for the diseases for which it is r tion or recommendation for the diseases for which it is recommended, as quinine is for chills.

In the local column of the Norfolk Daily Courier, the Editor in speaking of this preparation says: It is certainly a
great medicine, and within our own knowledge has restored
those who were considered beyond all human aid. Time
would fail to enumerate those cured of the various Chronic
Diseases Naryons Disorders Ulears Purisd Throat Fewers Diseases, Nervous Disorders, Ulters, Putrid Throat, Fevers, Syphilis, Dyspepsia, Incapacitated Youths, Ague and Fever

BURROW'S ELIXIR VITAL.

Diseases, or long continued filness of any kind, will find Carter's Spanish Mixture the only remedy that will revive their droeping constitutions, expel all bad humors from the blood, excite the liver to a prompt and healty action, and by its tonic froperties, restore the patient to life and vigor.

We can only say TEV IT. A single bottle is worth all the so-called Sarsaparillas in existence. It contains no Mercury, Opium, or any other noxious or poisonous drug, and can be given to the youngest infant without hesitation.

See the certificates of wonderful cures around the bottles. More than five hundred persons in the city of Richmond, Va., can testify to its good effects.
